

# FRANKFORT ROUNDABOUT.

## Pea Ridge.

Tobacco planting and suitable weather.

Gardens all doing well; vegetables plentiful.

Corn looking well, cut worms all left. They were afraid of meeting Capt. Tracy and being warned in to work on the county road.

Improvements in progress; fence whitewashed, a shed and old stable torn down, all due to the fact that the court will soon locate a pike for us.

This is a very pious community, meetings being in progress at several of the Churches within five miles caused the Ridge to be almost deserted last Sunday.

The small boy went to a grocery in Frankfort, made his purchases and Mr. Grocer gave him a pie and eight sticks of candy. What store was it? The boy will tell you for half share of pie and can't. Look out, grocery man, for a procession of boys.

Considerable dissatisfaction exists among those who are called out to work the roads, especially those who live on the turnpike and never see the road till called to work. The remedy is very simple. Pay the men for their work; then no one can grumble.

A petition was about to be laid before the County Court praying them to give the Ridge people some road or passway from this place to the Shelby pike, but has been dropped for the reason that the Court of Claims meets shortly and every magistrate knows that we need a road and 1,000 signatures would not strengthen this self-evident fact.

## Bald Knob.

The grand Union Sunday-school opens its doors to saint and sinner on to-morrow evening at Harp.

Prof. Tracy is covered with shame by the insult offered his brother teachers through the icy reception of two trustees.

Pres. Thomas Hunter's exposition of counterfeit school directors has won for himself the applause of all the Knob, minus 2.

Miss Laura Bell, the accomplished and charming belle of Shelbyville, has been visiting friends among our lovely vine-clad knobs.

Mr. Lee Bell, of Shelbyville, a member of the Southern Normal School at Bowling Green, attended the Teachers' convention here.

A mammoth protracted meeting is now stirring up the sinners at Lebanon. It is cheering to hear that many long lost sheep are being brought to the fold.

Mr. John Warren and lady and Prof. Nunn, of Shelby, have been visiting here. Prof. Nunn is a practical and popular educator. He is principal of a progressive school at Simpsonville.

The names of those who came to the front with basket in hand on last Saturday are as follows:

Mrs. Geo. Hoover, wife of chairman of board of trustees; Mrs. Maj. Flack, who has no school children but patron of schools; Mrs. S. R. Lee, patron of schools; Mr. Ed. Lee, a teacher in schools; Mrs. Neeley Peyton, a friend and patron of schools; Mrs. Geo. Harrod, an ever hospitable lady to all; and Miss Susan Harrell, an accomplished school girl of 16 years, without a mother or sister, had prepared with her own sweet hands food enough for the entire Association.

## Lung Trouble Relieved.

Three years and a half ago I gave up my business on account of consumption. I spent two seasons in Florida and one in California. I have been under treatment of physicians all the time, among them some of the most celebrated in this city, and I have kept growing worse and worse. I got to be a mere shadow, and could scarcely walk. On the 14th of last September I kept my bed, for I was not able to get out of it, and the doctors as well as my friends all expected me never to come out of it alive. I was having frequent and profuse hemorrhages, and on three different occasions I bled until I became insensible. About six weeks ago I heard of S. S. S., and began taking it. Its effects have been wonderful. I have not had a hemorrhage since I began it. I was soon able to sit up and even dress myself. My appetite became good; I could eat and retain my food, and my color returned. I gained flesh and strength rapidly, and I am now walking about town wherever I wish to go. It is certainly a great surprise to me and to every one who knows me. Long since they had all expected me to die. I am willing and want all who suffer from lung disease to know of me and my case, and I advise all such to take Swift's Specific and live. These are not idle words, but absolute facts which will with pleasure be substantiated for any who may doubt.

LOUIS T. CLARK,

345 W. 12th St. N. Y., Feb. 9, 1886.

THE SWIFT SPECIFIC CO., Drawer 3, Atlanta, Ga. New York, 157 W. 23d St.

Treatise on blood and skin diseases

# WHAT SCIENCE SAYS.

The "Fearful and Wonderful" Mechanism of the Human System Graphically Portrayed.

[In the editorial columns of the New York Analyst, H. Lasing, M. D., editor, writes the following beautiful description of the laboratories of the human system. We think we have never read a finer or more trustworthy one.]

"Man is the greatest of all chemical laboratories. Magnifying the smallest cell of the body and what a factory is spread before the eyes countless chambers in which are globes of air, masses of solid matter, globules of dying liquid; a flash of electricity and the whole is consumed and needful heat is carried into every part of the system. Electrical forces also generate and are conveyed to the brain, the muscles and the various nerve centers.

In another set of million chambers we see various gases and vapors. By chemical action these are changed and purified in the lungs and the skin. The blood, we often say, is a great living river. In its current are masses which the river in the lungs did not affect; blocks of chalk; slabs of tartar; pieces of bone-ash, strings of albumen; drops of molasses, and lines of alcohol. How are these waste masses disposed of? Begin where you will in this great stream you must come to the purifying places in the system. Here is all activity and an invisible force reaches out into the stream, seizes and carries this mass of waste into vast trenches, thence into a smaller reservoir, and finally into a larger reservoir which regularly discharges its contents.

This separation of lime, uric acid and other waste material from the blood without robbing it of a particle of the life fluid, passes human comprehension. In health, this blood-purifying process is carried on without our knowledge. The organs in which it is done are faithful servants whose work is silent as long as health remains.

"People strangely wait until pain strikes a nerve before they will realize that they have any trouble. They do not know that pain concerns chiefly the exterior not the interior of the body. A certain set of nerves connect these blood-purifying organs with the brain. They may not gnaw and bite as does the tooth-ache or a scratch, but they regularly, silently report. When these organs are failing these nerves indicate it by drawing the blood from the face and cheek, leaving the lip and eye blanched, by sending uric acid poison into the smallest veins, the skin then becoming gray, yellow or brown. They also prevent the purification of the blood in the lungs and cause pulmonary difficulties, weariness and pain. Who enjoys perfect health, especially in this land where we burn the candle in one mass? The athlete breaks down in the race; the editor falls at his desk; the merchant succumbs in his counting-room. These events should not have been unexpected for nature long ago hung out her 'lanterns of alarm.' When the 'accident' finally comes, its fatal effect is seen in a hundred forms; either as congestion, chronic weakness, as wrong action, as variable appetite, as head troubles, as palpitation and irregularities of the heart, as premature decay, as dryness and harshness of the skin causing the hair to drop out or turn gray, as apoplexy, as paralysis, as general debility, blood poisoning, etc.

"Put no faith then in the wisecracks who says there is no danger as long as there is no pain. Put no faith in the physician, whoever he may be, who says it is a mere cold or slight indisposition. He knows little, if any, more than you do about it. He can neither see nor examine these organs and depends entirely upon experimental tests, that you can make as well as he.

"If the output is discolored or muddy, if it contains albumen, lymph, crystals, sweet or morbid matter, is red with escaped blood, or roily with gravel, mucus and froth, something is wrong and disease and death are not far away.

"These organs which we have described thus at length, because they are really the most important ones in the human system, the ones in which a large majority of human ailments originate and are sustained, are the kidneys. They have not been much discussed in public because it is conceded that the profession has little known power over them. What is wanted for such organs is a simple medicine which can do no harm to the most delicate but must be of the greatest benefit to the afflicted. Such a remedy, tried and proved by many thousands all over the world is Warner's safe cure. With those in whom disease is deep seated it is the only specific. For those in whom the seeds are sown and the beginning of illness started it is an unfailing reliance. It may be recommended to the well to prevent sickness and to the sick to prevent death. With its aid the great filtering engines of the system keep on in their silent work without interruption; without it they get out of gear and then disease and death open the door and cross the threshold."

Such writing ought not only to please but to carry conviction that what Editor Lasing, M. D.,—so high an authority—says is true, and that his counsel is worthy the attention and belief of all prudent, right-minded people.

# Hard Times.

While money is close, wages and prices low, expenses should be cut down in every household. Economy the watch word for mothers, head off doctor bills, by always keeping in the house, a bottle of Dr. Bosanko's Cough and Lung Syrup. Stops a cough instantly, relieves Consumption, cures Croup and pain in the Chest in on night. It is just the remedy for hard times. Price 50 cents and \$1.00. Samples free. Sold by Hughes and Chiles.

## HALL'S HAIR RENEWER.

The great popularity of this preparation, after its test of many years, should be an assurance, even to the most skeptical, that it is really meritorious. Those who have used HALL'S HAIR RENEWER know that it does all that is claimed.

It causes new growth of hair on bald heads; provided the hair follicles are not dead, which is seldom the case; restores natural color to gray or faded hair; preserves the scalp healthy and clear of dandruff; prevents the hair falling off or changing color; keeps it soft, pliant, lustrous, and causes it to grow long and thick.

HALL'S HAIR RENEWER produces its effects by the healthful influence of its vegetable ingredients, which invigorate and rejuvenate. It is not a dye, and is a delightful article for toilet use. Containing no alcohol, it does not evaporate quickly and dry up the natural oil, leaving the hair harsh and brittle, as do other preparations.

## Buckingham's Dye FOR THE WHISKERS

Colors them brown or black, as desired, and is the best dye, because it is harmless; produces a permanent natural color; and, being a single preparation, is more convenient of application than any other.

PREPARED BY R. P. HALL & CO., Nashua, N. H. Sold by all Dealers in Medicines.

# Rheumatism

Though painful and wearing almost beyond endurance, is not an incurable disease if treated in time. Perhaps no other disease has so baffled the efforts of science and medicine as this, but at last a remedy has been discovered in **Dongaline** which CURES RHEUMATISM.

WHAT THEY SAY: "Dongaline is doing all that is claimed it will do."

G. C. SEIFERT, M. D., Cantrall, Ill.

FOR SALE BY ALL DRUGGISTS.

A. A. MELLIER, Sole Proprietor, 709 and 711 WASHINGTON AVENUE, ST. LOUIS.

"Had a case of Inflammatory Rheumatism of nearly all the large joints. Gave TONGALINE, and to-day my patient is out and doing well."

W. W. BAXTER, M. D., Hersman, Ill.

"In my opinion TONGALINE supercedes all other so-called rheumatic remedies."

S. O. WOODHAM, M. D., Marango, Ill.

"Have given TONGALINE a fair trial, and think it the best remedy I have ever found for Rheumatism."

B. F. DAVIS, Sturgeon, Mo.

## Capital City Machine Works,

J. B. Meek, Proprietor.

—AGENT FOR—

J. P. Manny Mower, Independent Reaper, Geiser Manufacturing Company's Peerless Threshers and Saw-mill, Kalamazoo Spring Tooth Harrow and cultivator, Superior Grain Drill, Buckeye Cider Mill, Thomas Hay Rakes, Atlas Engine and Reiler Works, and Columbus Steam Pumps

All of the above I claim are the best in the market. I keep them in stock and take pleasure in showing them at my warehouse in Frankfort, Ky.

J. B. MEEK.

## Blue Grass Nurseries!

SPRING, 1886.

## TREES! TREES!

OUR USUAL STOCK OF FRUIT AND ORNAMENTAL TREES, GRAPES, VINES, SMALL FRUITS and everything usually found in a Nursery Establishment. Catalogues on application to H. F. MILLENMEYER, Lexington, Ky.

## NEW PLANING MILL.

J. M. WAKEFIELD

Having recently added to his Establishment

First-Class Planing Mill,

Is now prepared to furnish all kinds of

Sash, Doors, Blinds, Frames, Molding

ALSO

Scroll Work, Stair Work & Turnin

Gotten out in the Best Style.

May 15th.

## PILES.

DR. W. I. KELLEY,

OF CINCINNATI, OHIO;

—WILL BE AT THE—

CAPITAL HOTEL

—IN FRANKFORT, KY.—

SATURDAY, MAY 8, 1886.

SATURDAY, JUNE 5, 1886.

SATURDAY, JULY 3d, 1886.

SATURDAY, JULY 31st, 1886.

All cases of BLIND or BLEEDING PILES cured by the Brinkerhoff system WITHOUT USING THE KNIFE or LIGATURE and without any pain.

FISTULA

Cured without the knife or ligature.

FISSURES

Cured without cutting or tearing.

RECTAL ULCER AND RECTAL CATARRH

Diseased conditions that produce consumption and most of the chronic diseases.

UTERUS,

Diseases of the womb that are caused by a diseased bowel, also treated.

PRURITUS, Itching Piles,

Can also be cured if not too late, as the itching is only a symptom of the disease that exists in the lower bowel.

REFERENCES.
